

CROMOLINE

Bicottura Tradizionale italiana.
Italian traditional double fired.

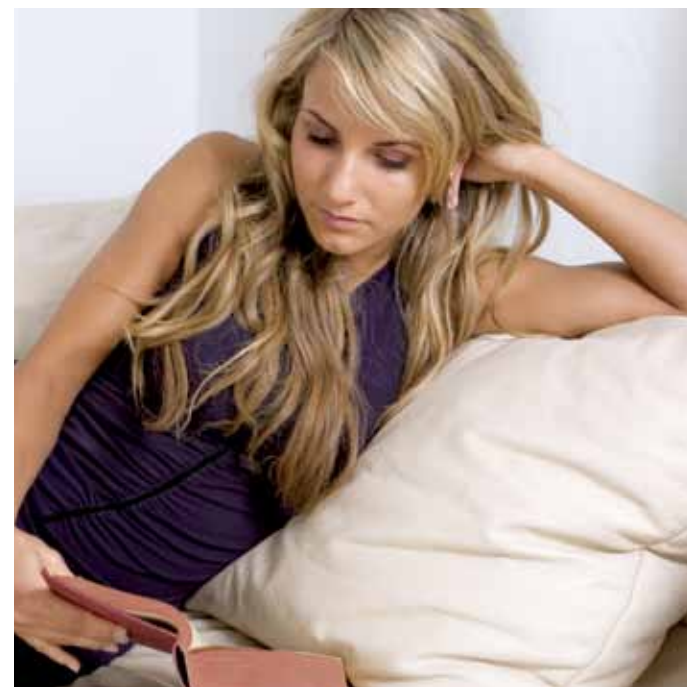

Cromoline sviluppa la ricerca sul cromatismo decorativo abbinando le teorie terapeutiche del colore a segni, disegni e soluzioni decorative che attraversano trasversalmente i più vari stili della ceramica per l'arredo. Con una gamma di soluzioni che permette di "esportare" il materiale ceramico anche in ambienti in cui abitualmente non viene utilizzato. Cromoline permette di vestire gli ambienti domestici con uno stile assolutamente personale aggiornabile in qualsiasi momento. Cromoline è abbinabile ai pavimenti della serie Colors.

Developing research into decorative colour with therapeutic theories on colours, symbols, designs and decorative solutions that encompass the widest range of style in ceramic tiles for furnishing. A range of solutions allows you to 'transfer' tiles to settings where they are not normally used. Cromoline lets you decorate any room in your home with a totally personal style that can be updated at any time. Cromoline can be matched with floors from the Colors range.

Cromoline ist einerseits die Fortsetzung der Forschung nach dem dekorativen Farbeffekt und andererseits die Kombination von therapeutischen Farbtheorien, Zeichen, Zeichnungen und dekorativen Lösungen, die die unterschiedlichsten Stilrichtungen von Fliesen für Innenausstattung umfassen. Die Fliesen können auch in Räumen eingesetzt werden, in denen sie normalerweise nicht zum Einsatz kommen. Aus diesem Grund lassen sich Wohnräume mit Cromoline in einem ganz individuellen Stil ausstatten, und jederzeit aktualisieren. Cromoline kann auch mit den Fußböden der Serie Colors kombiniert werden.

Cromoline développe la recherche sur le chromatisme appliqué à la décoration, alliant les théories thérapeutiques liées aux couleurs, à des motifs, dessins et solutions de décoration qui s'inspirent des styles les plus variés du carrelage pour l'ameublement. Avec une gamme de solutions permettant "d'exporter" les carreaux au cœur d'espaces où ils ne sont pas utilisés d'habitude, Cromoline permet d'habiller les milieux de l'habitation d'après son propre style, que l'on peut mettre à la page à tout moment. Cromoline se marie très bien aux revêtements de sol de la série Colors.
